FOR IMMEDIATE RELEASE

## **Third Wave Systems Announces 2010 Users Conference Annual Event Moves to St. Louis, Missouri USA**

**MINNEAPOLIS, MINN.** (May 14, 2009) -- Third Wave Systems is pleased to announce that the 2010 AdvantEdge International Users' Conference will be held in St. Louis, Missouri (USA) on May 26 and 27 at The Ritz-Carlton Hotel. The St. Louis region is home to some of the United States' largest corporations, including Enterprise Rent-A-Car, Energizer, Anheuser Busch-InBev, and Boeing Integrated Defense Systems. Included in the 2010 event will be an industrial tour of the Boeing facility.

Details were announced at the conclusion of the 2009 Users' Conference in Fort Worth, Texas, which welcomed 50 attendees from across the globe, including Canada, Sweden, Italy, USA, Turkey, and Germany. Such strong participation numbers during this time of economic challenge indicates the value attendees place on attending this annual event, which is geared specifically toward AdvantEdge users.

### **CURRENT ADVANTEDGE USERS**

All AdvantEdge software users are encouraged to consider submitting a topic and abstract for the 2010 event. Ideal presentations will showcase how AdvantEdge FEM and/or AdvantEdge Production Module are being used to improve machining processes.

### **NEW/POTENTIAL ADVANTEDGE USERS**

Companies looking into Third Wave Systems' software for the first time are encouraged to attend the Users' Conference as a means of becoming familiar with the software's benefits and capabilities. Hearing and seeing how industry leaders are using the AdvantEdge software to achieve machining goals and

improve standard practices can be invaluable to new and potential users. Complimentary 60-day software evaluations are available now.
