FOR IMMEDIATE RELEASE

## **Third Wave Systems 2010 International Users' Conference Call for Abstract Topics**

**MINNEAPOLIS, MINN.** (November 20, 2009) -- Abstract topics are now being accepted for the TWS 2010 AdvantEdge International Users' Conference! All TWS software users are strongly encouraged to submit a presentation topic and abstract for consideration. Ideal presentations will showcase how AdvantEdge FEM and/or AdvantEdge Production Module are being used to improve your company's machining processes.

For those hoping to be included in our presenter selection process, the following deadlines should be noted:

- **January 29, 2010** - Topic due to Third Wave Systems for consideration
- **March 31, 2010** - Abstract due to Third Wave Systems

The 2010 AdvantEdge International Users' Conference will be held in St. Louis, Missouri (USA) on May 26 and 27 at The Ritz-Carlton Hotel. The St. Louis region is home to some of the United States' largest corporations, including Enterprise Rent-A-Car, GKN Aerospace, Energizer, Anheuser Busch-InBev, and Boeing Integrated Defense Systems. Included in the 2010 event will be an industrial tour of the GKN Aerospace facility.

Companies looking into Third Wave Systems' software for the first time are encouraged to attend the Users' Conference as a means of becoming familiar with our software's benefits and capabilities.

Hearing and seeing how industry leaders are using the AdvantEdge software to achieve machining goals and improve standard practices can be invaluable to new and potential users! Want to try out the software before the 2010 Users' Conference? Complimentary 60-day software evaluations are available now.
